PROFESSIONAL SUMMARY

Data Analyst with a strong foundation in SQL, Excel, and Power BI, focused on customer and transaction data analysis. Experienced in preparing KPI reports, identifying trends, and supporting business teams with data-driven insights. Skilled in data cleaning, validation, and visualization, and comfortable working with large datasets to deliver accurate and actionable reports. Motivated to grow in business analytics and continuously improve analytical skills.

PROJECTS

Loan Risk Analysis

This project is designed to analyze customer transactions using a dataset from Kaggle. The analysis process includes:

- Profiles of high-risk customers were identified.
- Opportunities to improve lending decisions were created
- Ways to reduce financial losses for the bank were outlined

Transaction Analysis

This project is designed to analyze customer transactions using a dataset from Kaggle. The analysis process includes:

- Data cleaning
- Visualization (charts and graphs)
- Statistical analysis and deriving insights
- Generating actionable conclusions from transaction patterns

Customer Churn Analysis

This project analyzed customer churn in the banking sector. The goal was to identify factors influencing customer attrition and to develop strategies for improving customer retention and increasing their Customer Lifetime Value (CLV):

- Data cleaning
- Data Analysis / DAX Formulas
- Power BI Dashboard
- Business Insights & Strategy

SKILLS

- SQL (Advanced)
- Python (Pandas, NumPy, Seaborn, Matplotlib)
- Excel (Power Query, Pivot Tables)
- Power BI (DAX, Data Modeling)
- Git, GitHub, Jupyter Notebook
- Analytical Thinking, Attention to Detail, Data-driven Decision Making
- Communication Skills, Team Collaboration, Adaptability

LANGUAGES

- Uzbek (Native) | English (A2)

EDUCATION - 2024 – 2028

Bachelor's Degree in Software engineering

University of Science and Technologies — Tashkent, Uzbekistan
